Agents of Hope Membership Agreement

As an Agent of Hope I am a community volunteer who actively promotes cancer awareness in my local community and supports and promotes the mission and vision of Mountains of Hope.

I am already helping to promote cancer awareness in my community in these ways:

- Share cancer related materials and information through mailings or at meetings.
- Place related articles in my organizations newsletter
- Plan cancer awareness programs and/or activities
- Other (Please explain)

Please help me identify ways to promote cancer awareness in my community. I have an interest in the following cancers or activities:

Signature: _____

****Listserv:**

Why a Mountains of Hope Listserv? A Coalition listserv should enhance communication among the membership as a whole, as well as those who make up the various subcommittees and taskforces.

What is a Listserv?

A listserv (or electronic mailing list) is a way for users to share information on a common topic electronically. The same messages are distributed to all list subscribers by sending or posting them to a single e-mail address. When you send a message to the list address, it is forwarded to all list subscribers. Posting a message to a listserv is as simple as: writing e-mail, addressing it to the list's posting address, and sending it out. To subscribe to a listserv your computer must be connected to the Internet.
